

MedjetAssist Defined

A medical evacuation membership program - as an individual or corporate member, if you are hospitalized more than 150 miles from home, domestically or abroad, MedjetAssist will arrange comprehensive medical transportation to the hospital of your choice.

The MedjetAssist Membership

Domestic air medical evacuation averages \$25,000 and internationally it can exceed \$100,000. Medjet membership provides an alternative without facing such out of pocket costs. For opt-in enrollment, individuals associated with *Chief Executive Boards International (CEBI)* can participate with reduced annual rates of \$190 for an individual and \$300 for family protection. It's simple and fast to participate with no health questions under age 75 - see enrollment info below. Medjet equates family cover to the primary member, their spouse or partner and up to 5 unmarried dependent children under age 23. The program provides the utmost in peace of mind while likewise acting to mitigate financial risk & liability. Medjet benefits and their delivery are quite unlike typical travel insurance, assistance plans, platinum card supplements and business travel accident coverage.

The MedjetAssist Difference

- ◆ The receiving hospital is the member's choice of facility if inpatient care is required; often for illness/injury that is neither critical nor life-threatening.
- ◆ Domestic and international protection - for business or personal travel
- ◆ No dollar limits on transport costs - no deductibles, co-payments, subrogation or claim forms. The membership fee is the only out of pocket cost for the services Medjet arranges on behalf of the member.
- ◆ No health questions to enroll under age 75 - simply first/last name, primary address and DOB's. A separate "Diamond" program is available for those age 75+.

Activate your Medjet membership at reduced annual rates of \$190 (Individual) or \$300 (Family) by calling Medjet at 1-800-527-7478 referring to the *CEBI* Medjet plan or enroll online by visiting www.Medjet.com/CEBI. For group protection within your own organization, contact Scott Lawson at SLawson@Medjet.com.
